

How many do they have?

Find out what sort of animal your minibeast is by looking and trying to count its legs!
There are around 7000 species of fly in the UK and around 4000 beetles, so counting the legs is just the start!

				No Legs	
Earthworm	Slug	Snail	Fly Larva (maggot)		
					6 Legs
Springtail	Caterpillar	Ant	Shield bug		
					
Beetle & Ladybird	Froghopper & bug	Grasshopper or Cricket	Fly		
					
Cranefly	Dragonfly	Butterfly	Moth		
					
Bee	Wasp	Damsel fly			
				More than 6 legs	
Harvestman	Spider & Mite	Woodlouse	Centipede		
					
Millipede

Minibeasts finder tick sheet

Where it was and what it was doing gives clues to what your minibeast needs to survive.

Make a tally chart to count how many minibeasts you have seen and where.

Where did you see them?	In the grass 	Under something 	On a flower 	On a leaf 	On a tree 	Somewhere else
